

**State Project No. 713-53-0113  
Little Italy Road Bridge Over Creek  
Tangipahoa Parish  
(Estimated Construction Cost: \$437,740.50)**

The existing structure is functionally obsolete with a load posting of 10-15 tons. The closing of the structure would provide an inconvenience to the motoring public entering and leaving Little Italy.

This type of construction will support the local concrete, formwork and equipment vendors along with drawing on the local labor pool.
